Thirteenth Year, No. 25

GLEICHEN, ALBERTA. WEDNESDAY, SEPTEMBER 10, 1919

## Queenstown School Fair, Wed., Sept. 24

Arrangements have been made whereby, Mr. A. E. Ottewill, director of the Department of Extension, at Edmonton will give in the evening an illustrated lecture and moving pictures at the Marquis Municipal School Fair, which will be held in the Queenstown U.F.A. Hall, Sept. 24th. Mr. Ottewill has only recently returned from overseas where he has been lecturing to the troops and his pictures taken over there are sure to prove interesting. Mr. Stephen principal of the School of Agriculture at Claresholm will also give an address.

Although this is the first attempt at a school fair in this neighborhood we feel sure no one who attends will regret it. It will be a great event in the lives of our school children and we are glad to know of their enthusiasm.

Each school will wear their colors and school yells and songs will make the crowd feel young.

Family lunch baskets will be the order of the day, but coffee, sandwiches, ice cream, etc., can be obtained at any time on the grounds.

The committee has arranged to entertain over night all who bring live stock or exhibits from a distance and a goodly sum will be given in prizes.

## Gleichen G.W.V.A. Doings

### Strongly Indorse the Erection of Memorial Monument

At a well attended meeting last Sunday of the Gleichen branch of the G. W. V. A. several important questions were brought up and the following motions carried:

Moved by Comrade Davidson and seconded by Comrade Brown, "That the financial statement of the G.W.V.A. dance be accepted". The net proceeds amounted to \$150.

Moved by President Stabback and seconded by Comrade Moss, "That the G.W.V.A. strongly endorse the action taken by Memorial Committee and public in regard to the memorial stone."

Moved by Comrade Brown and seconded by Comrade Bates, "That Pres. Stabback and Comrade Skeens interview the Town Council with regard to a G.W.V.A. hall".

All G.W.V.A. members are requested to call by telephone or see Pres. Stabback in regard to the parade next Sunday in Calgary, in which we propose taking part in.

## Financial Statement of Fair

### Gleichen Citizens Band Donate Two Days Services Free for Agricultural Association

Owing to the heavy rain last Thursday night the attendance at the regular meeting of the Gleichen District Agricultural Association was small. There was considerable business transacted in a short time with President Dafeo in the chair.

The winding up of the recent exhibition occupied most of the time, which was made comparatively easy by the very efficient detailed financial statement of Secretary Mallory, which was accepted by a unanimous vote. While the statement shows a deficit of about \$300 for the fair it should be remembered this year no subscriptions were solicited and the farmers and ranchers were the only contributors of \$95 for the bucking contests, whereas for previous fairs several hundred dollars subscribed. To meet this deficit it was resolved to give several entertainments during the coming fall and winter, the first to be a dance next Friday evening.

The Secretary's financial statement was as follows, part of the many details here being lumped together:

The officers of the Association were authorized to borrow sufficient money to pay all indebtedness and to pay all the prizes and accounts accepted. The secretary was instructed to tender the appreciation of the Association to all who assisted in making the fair the success it proved. The secretary was also instructed to engage an auditor and have the books certified according to regulations.

Since the meeting the secretary has received a letter from the Gleichen Citizens Band most generously stating that as the Association had met with a financial deficit at the fair they would accept no remuneration for their two days services at the fair, which certainly will be highly appreciated by the Association.

## Dance Friday Night, Sept. 12

### Agricultural Association will Give Dance to Meet Exhibition Deficit

So pleased was Mr. Robert Landell with the success of the Gleichen tenth annual exhibition that he has donated to the Association the use of the Gleichen Opera House for next Friday night, Sept. 12th, when the Association will put on a big public dance to which every person is invited.

Mrs. Onstad's Orchestra and the Gleichen Citizens Band will furnish the music and the proceeds will be divided between the Association and the Citizens Band, as the latter generously gave their services free during the two days of the Fair.

Everybody come to have a good time and help two worthy institutions.

## The Sunday School Convention Sept. 13-14

The annual Sunday School convention of this district will be held in the Union Church Gleichen on Saturday evening and Sunday, Sept. 13th and 14th.

The executive expects that all schools within the district will send delegates. Mrs. D. McLeod, convener of the local entertainment committee desires to have the names of the delegates sent in early so that ample provision can be made for all visitors.

The opening session will be held on Saturday evening at 8 o'clock. There will be three sessions on Sunday: morning 9.30, afternoon 2.30 and evening at 7.30.

Among those who take part will be: Rev. W. E. Galloway, Mrs. C. M. Stains, Mr. E. Scruben and Capt. Robt. Pearson, M.L.A., Calgary; Mrs. E. Maurer, Miss Davis and Mr. Chas. Caine, Bassano; Mrs. E. Smithy, Makepeace; Mr. M. F. Waite, Lethbridge; Mr. Alex. Silver, Gem.

The Union Church choir and other singers will provide musical numbers at all the sessions. Capt. Pearson, one of the best known and strongest speakers in the province will deliver an address on Sunday evening. The session will open promptly at 7.30.

This conference will not only be an inspiration but practically helpful to all who are interested in the great work of the Sunday School.

Come for the Saturday evening session and come prepared to stay and hear Capt. Pearson on Sunday evening.

## LOCAL AND GENERAL

Considerable town property has changed hands recently at good prices and there never was such a demand to rent houses, which may be attributed largely to the excellent reputation our public school has earned for itself. The school, too, is filled with pupils and the trustees are pondering how to provide room for more pupils. Messrs. Henderson & Mallory state they have sold more houses the past two months than they sold previously all the years they have been in business. What the demand will be when the Agricultural School is opened is question for serious consideration. Watch Gleichen grow.

Next Tuesday and Wednesday, September 16 and 17, Bassano is putting on its first fair. Good prizes are offered and sports each day, including an air ship. Read their advertisement.

Bassanoites intend getting a little nearer heaven next Tuesday and Wednesday—by air ship. Chances are they will sail right over the dam site.

## Town of Gleichen By-Law No. 21

The provisions of above by-law relating to dog licenses will be strictly enforced and all persons owning or harboring a dog or dogs who fails to take out a license therefor on or before 17th September will be prosecuted.

A. R. TUDHOPE,  
Mayor.

They hustled into their overcoats to the playing of the National Anthem. "Hurry," said Conward, "let's get out quick. Ain't she some dame? There—through the side exit—the stage door is that way. She promised to have her chum with her—they'll be waiting if we don't hurry."

Conward steered him to the stage entrance, where a little group was already congregated. In a moment the girl appeared, handsomely dressed in furs. Dave would not have known her, but Conward recognized her at once, and stepped forward. With her was another girl, also from the chorus, but Dave could not recall her part. He was suddenly aware of being introduced.

"This is my friend Belton," Conward was saying. Dave was about to correct him when Conward managed to whisper, "Whist! Your stage name. Mine's Elward. Don't forget."

Conward took the first girl by the arm, and Dave found himself following rapidly with the other. They cut through certain side streets, up a stairway, and into a dark hall. Conward was rattling keys and swearing amiably in his soft voice. Presently a door opened; Conward pressed a button, and they found themselves in a small but comfortably furnished room—evidently bachelor apartments.

The girls threw off their wraps and sauntered about the place, commenting freely on the furnishings and decorations, while Conward started a gas-grate and put some water to boil.

"Sorry I've nothing for you to eat," he said, "but I've some good medicine for the thirst."

"Eating's poor business when there's a thirst to be quenched," said one of the girls, with a yawn. "And believe me, I've a long one."

Conward pulled a table into the centre of the room, set chairs about, and produced glasses and a bottle. Dave experienced a sudden feeling as of a poor swimmer beyond his depth. He had never drunk, not even beer, not so much from principles of abstinence as from disgust over his father's drunkenness and enmity towards the means of it.

The glasses were filled and raised. "Ho!" said Conward.

"Here's looking!" said one of the girls.

Dave still hesitated, but the other girl clinked her glass against his. "Here's looking at you," she said, and she appeared to lay special emphasis on the last two words. Certainly her eyes were on Dave's as she raised her glass to her lips. And under the spell of those eyes he raised his glass and drained it.

Other glasses were filled and drained. The three were chattering away, but Dave was but vaguely conscious of their talk, and could weave no connected meaning into it. His head was buzzing with a pleasant dreamy

sensation. A very grateful warmth surrounded him, and with it came a disposition to go to sleep. He probably would have gone to sleep had his eye not fallen on a picture on the wall. It was a picture of a girl pointing her finger at him. He suspected that she was pointing it at him and as he looked more closely he became very sure of it.

No girl could point her finger at him. He arose and made a lunge across the room. He missed her, and with difficulty retraced his steps to the table to make a fresh start.

"She's makin' fun of me," he said, "an I don't stand for that. Nobody can do that with me. Nobody—see? I don't 'low it."

"Oh, you don't," laughed one of the girls running into a corner and pointing a finger at him. "You don't?"

He turned his attention to her, steadying himself very carefully before he attempted an advance. Then, with wide-stretched arms, he bore down cautiously upon her. When he had her almost within reach she darted along the edge of the room. He attempted a sudden change in direction, which ended disastrously, and he found himself very much sprawled upon the floor. He was aware of laughter, but what cared he? He was disposed to sleep. What better place to sleep than this? What better time to sleep than this? In a moment he was lost to all consciousness.

It was later in the night when he felt himself being dragged into a sitting posture. He remonstrated in a mumbling voice. "'S too early," he said. "Altogether too early. Early. Whew! Watch 'er spin. Jus' his job. Paid for it, ain't he?"

"Well, I ain't paid for this," said Conward, rather roughly, "and you got to pull yourself together. Here, take a little of this; it'll put some gimp into you." He pressed a glass to his lips, and Dave swallowed.

"Where am I?" he said, blinking at the light. He rose uncertainly to his feet and stared about the room in returning consciousness.

"Where's the girls?" he asked. "Gone," said Conward, sulkily. "Couldn't expect 'em to stick around all night to say goodbye, could you, and you sleeping off your drunk?"

Dave raised his hand to his head. A sense of disgrace was already upon him. Then he suddenly turned in anger on Conward.

"You put this up on me," he cried. "You made a fool of me. I've a mind to bash your skull in for you."

"Don't be silly," Conward retorted. "I didn't enjoy it any more than you did—introducing you as my friend, and then have you got out like that. Why didn't you tip me? I didn't know it would put you to sleep."

"Neither did I," said Dave. "Well, the next thing is to get you home. Can you walk?"

"Sure," Dave started for the door, but his course suddenly veered, and he found himself leaning over a chair. Conward helped him into his overcoat, and half led, half shoved him to his boarding house.

### CHAPTER SIX

Elden awoke Sunday morning with a feeling that his head had been boiled. Also he had a prodigious thirst, which he slacked at the water pitcher. It was the practice of Metford's gang to select one of their number to care for all the horses on Sundays, while the others enjoyed the luxury of their one day of leisure. In consequence of this custom the room was still full of snoring sleepers, and the air was very close and foul.

Dave sat down by the little table that fronted the open window and rested his head on his hands. It was early spring; the snow was gone; dazzling sunshine bathed the prairies in the distance, and near at hand were the twitter of birds and the ripple of water. It was a day to be alive and about.

But the young man's thoughts were not of the sunshine, nor the fields, nor the water. He was recalling, with considerable effort, the events of the previous night; piecing them together in impossible ways; re-asserting them until they offered some sequence. The anger he had felt toward Conward had subsided, but the sting of shame rankled in his heart. He had no doubt that he had furnished the occasion for much merriment upon the part of the young women, in which, quite probably, Conward had joined.

### Rumania's Luck

Paris.—Reports from Budapest say that the crop in Rumania is the largest in 20 years. The Germans are already offering 20,000 marks per carload of twenty tons of wheat.

The police department employs many detectives—also many defectors.

A man is compelled to keep his word when no one will take it.

## An Enemy Unconquered

Germans Are Trying To Hold As Many As Possible With The Colors

The New York Times says: By the treaty the Germans promise to cut down their army to 200,000 men, and after a year, when Spartacus will presumably have ceased to be dangerous to 100,000. Dispatches from the Rhine have already told how they are evading this provision by the organization of home guards and police reserves, including hundreds of thousands of veteran soldiers and amounting virtually to minute-men ready to be flung into line in any new war.

But even this is not enough. Now they are trying to obtain exemption from the requirement to cut down their regular army to 200,000, on the ground that it would be a hazardous undertaking to discharge so many trained soldiers all at once.

The American Army has been brought back to this side of the Atlantic, and most of it has put on civilian clothes and gone to work. This was done in response to an unmistakable popular demand. The American people thought the war was over and wanted their troops brought home. As rapidly as possible the British Army is going back to civilian life, also in response to a popular demand. Demobilization in France and Italy has moved more slowly, because the French and Italians are much closer to the seat of trouble and know what it means to be invaded; but even in those countries there is strong pressure on the Government to disband the armies and let everybody forget about the war.

But the Germans are trying, not to disband as many men as they can, but to hold as many as possible with the colors. The Turkish army was theoretically beaten a year ago, but the disarmament which was promised seems to have been incompletely carried out. Today we know that Armenia is to be freed from Turkey, but we hear that thousands of armed Turks are in or near Armenia, and that the Armenians have no war material with which to oppose them. We can give Armenia freedom, but the Turks are likely to wipe out the rest of the Armenians.

We have been talking about the disposition of Constantinople. There are Allied military missions and food missions in the city, but according to credible reports there is also a considerable Turkish army there. The Turks are not prepared to take their defeat lying down; they made some resistance when the Greeks occupied Smyrna, and it is far from impossible that the nation which gets Constantinople will have to fight for it.

The Bulgarian army was thoroughly beaten a year ago, but the Bulgarians, too, applied sabotage to the armistice terms. There is still in Bulgaria a considerable force of veteran troops fairly well supplied with munitions, and the Bulgarians will not admit that they have lost the war until they are forced to admit it.

There is danger that before long the enemy whom our armies defeated a year ago will have stronger forces in the field than we.

To America, which is four thousand miles away, this may have no pressing interest, and certainly no immediate menace; what it may mean in the long run is another question. But it is undoubtedly of an engrossing interest to the nations which live next door to the enemy. With conditions such as this, is it surprising that the Roumanians finally took their fate into their own hands and went forth to abolish the standing menace on their northern frontier? The conference was doing nothing for them; they concluded to do something for themselves. There have been no reports in the last few days that the Greeks, menaced by the unquenched hostility of a Bulgaria by no means disarmed, and kept out of Thrace by the solitary opposition of the American delegation, may presently do the same. It is no doubt to be regretted that a Power feels itself, as the Roumanians seem to feel, thrust out of the alliance and compelled to take measures for its own protection; it is particularly unfortunate, since a power which has to do this sometimes goes too far, as the Roumanians may have done; but those nations which have gone home satisfied with their part in the war ought not to be too critical of those who will be the first to feel the enemy's next attack.

U.S. Fleet May Visit Vancouver

Vancouver.—"Great hope," that a portion of the United States Pacific fleet may visit Vancouver harbor on Sept. 22, when the Prince of Wales is to be here, is expressed in a telegram from Franklin D. Roosevelt, assistant secretary of the navy in Washington, to W. R. Owen, acting mayor.

## How You Can Tell Genuine Aspirin

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Tablets, Refuse Them—They Are Not Aspirin

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations. Look for the "Bayer Cross"! Then it is real Aspirin, for which there is no substitute.

Aspirin is not German, but is made in Canada by Canadians, and is owned by a Canadian Company.

Genuine "Bayer Tablets of Aspirin" have been proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Handy tin boxes of 12 tablets—also larger "Bayer" packages—can be had at any drug store.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Monoaceticacidester of Salicylic-acid.

### New Express Rates

Increases on Shipments Over 100 Pounds, With Some Reductions

Montreal, Que.—In accordance with the judgment of the board of railway commissioners, the tariffs of the express companies have been revised effective Sept. 1. While the new schedules provide for an increased rate on merchandise shipments weighing 100 pounds and over, the charges on the smaller parcels are in some instances reduced.

The special scale of rates on shipments over 500 pounds have been cancelled.

With the exception of carload fish rates from the Pacific Coast no changes have been made in the commodity tariffs, though after Sept. 1 no cartage will be performed on commodities carried at special carload rates.

On less than carloads no collection service will be given but delivery will be made at destination where a cartage service is maintained.

### Guns At Home

Canadian Guns That Fired Last Shots On Armistice Day Handed Over With Elaborate Ceremonies

Mons, Belgium.—A Canadian cannon, which fired the last shots at the Germans on armistice day, November 11, were presented to the town of Mons with elaborate ceremonies.

Colonel Bovey, of the Canadian forces, said, in presenting the guns that they would be a souvenir of the kindness shown by the natives of the town to the soldiers.

The Mayor of Mons spoke of the self-sacrifice of the Canadians, who, without profit, came to fight for the liberty of Belgium.

### After Due Deliberation

Lexington, Ky.—"Uncle Johnny" Shell, described as "the oldest man in the world," has just celebrated his 131st birthday by sending for a life insurance agent. "You never can tell what'll happen," he told the agent, "and I want to prepare for the worst."

### Have to Wait Their Turn

London.—The C.P.O.S. have a waiting list of 5,000 people for transportation to Canada. The Cunard company list will not be cleared until the end of November, and it is said that over 500 applicants call at the company's office daily.

### The Moth and the Clothes

Society Woman: "I see by today's papers I am referred to as one of 'fashion's butterflies.'"

Her Husband: "Considering the way you go through clothes I should think moths would apply better."

## SUNDAY SCHOOL LESSON

LESSON FOR SEPTEMBER 14

### JUDGMENT OF THE NATIONS

The subject selected by the lesson committee is "The Future Life," but at best such a statement would be the use of the term in an accommodated sense. According to legitimate textual and contextual signification it is the judgment of the living nations which lies still in the future (v. 32).

The idea of a general judgment which is of such frequent occurrence in religious literature and teaching is a fundamental error. It is not once found in the Bible, neither the idea which it is intended to convey. Doctor Pentecost most distinctively says, "It is a mischievous habit that has led the Christian world to speak of the judgment as being one great event taking place at the end of the world, when all human beings, saints, sinners, Jews and Gentiles, the living and the dead, shall stand up before the great white throne and there be judged. Nothing can be more wide of the Scriptures." The Bible speaks of different judgments, differing in respect to the subjects to be judged, the place of judgment, the time of judgment and the result of the judgment. This is not the judgment set forth in Revelations 20:11-14, but precedes that one at least one thousand years.

I. The Judge (v. 31).

It is the Son of Man, the one who came and died to redeem the human race, and who now being clothed with majesty and power will act as judge. Those who accept him now shall not come into the judgment (John 5:24).

II. The Time (v. 31).

This will be when the Lord comes in his glory, accompanied by a retinue of glorious angels. This will take place after he has gathered the elect remnant of Israel. There will be no resurrection in connection with this judgment.

III. The Place (v. 31).

It will be on his glorious throne. This throne will be most surely in the land of Israel. The Prophecy of Joel, third chapter, and Zechariah 14:1-5, make it to be in or near Jerusalem. The angel said to Mary: "Thou shalt call his name Jesus; he shall be great and shall be called the son of the highest; and the Lord God shall give unto him the throne of his father David; and he shall reign over the house of Jacob for ever, and of his kingdom there shall be no end." (Luke 1:31-33). Just as there was a literal place and a literal king there shall be a literal throne.

IV. The People Judged (vv. 32-45).

These will be the living nations upon the earth after the church has been translated (I. Thess. 4:16, 17). These are the nations to whom the gospel of the kingdom shall be preached just prior to the coming of the end. "And this gospel of the kingdom shall be preached in all the world for a witness unto all nations, and then shall the end come" (Matt. 24:14).

This gospel is distinguished from the gospel of the grace of God which is now being preached. The preachers of this gospel will be Jews (Rev. 7 and Rom. 11). These are the brethren in the flesh, of the Lord, they that move among the nations of the world with the startling message of the news of the Lord's approaching kingdom. Some of the nations will gladly receive the message and most kindly receive the king's messengers, giving them clothing, food, shelter, etc. Others will persecute them, thrusting them into prison, etc. Here the former will visit these messengers of the king and provide for their wants. At this time the judge will separate the nations, placing the sheep on the right and the goats on the left. The "sheep" are those who have given proper treatment to Christ's brethren. The goats are those who rejected and ill-treated his brethren. If these three classes, the "sheep," "goats," "brethren," be kept separate, all confusion will be avoided.

V. The Issue of the Judgment (v. 46, cf. 34-41).

1. The sheep, enter upon the inheritance of a prepared kingdom (v. 34).

2. The goats go into an everlasting fire prepared for the devil and his angels (v. 46). This judgment shall determine their destiny.

### Coal Mines Running

Operations in District Eighteen Reported in Full Blast

Ottawa.—The Minister of Labor stated that he had received a message from the department's fair wage officer at Calgary to the effect that nearly all the coal mines in District 18 are again in full operation. About 8,000 men were affected by the strike, which tied up approximately 170 coal mines. It is understood that all the mines are in operation with the exception of 16.

## Yorkshire Miners Cost Nation Dear

Strike Fund Exhausted With End of Fourth Week's Benefits

London.—The Yorkshire miners' strikes have been an expensive thing for the miner as well as for the people not directly connected with the dispute. The generally-accepted figures are:

Damages to mines, \$10,000,000; coal lost to industry, \$15,000,000; losses to kindred industries, \$12,500,000; the strike fund of the miners, amounting to \$1,400,000, was exhausted with the end of the fourth week's strike benefits. This fund, it was stated, had taken some 25 years to accumulate. The Local Government Board, it is stated, cut out a lot of red tape, and with the co-operation of the local relief authorities averted distress throughout the district. In some cases \$2.50 a week was allowed every married woman, with \$1.25 for every child. This money, with the strike benefit, averted, the authorities believe, a great deal of suffering.

Had a Very Bad Attack  
OF  
Bowel Complaint  
IT WAS CURED BY  
DR. FOWLER'S  
EXTRACT OF WILD STRAWBERRY

Any one suffering from bowel complaints such as diarrhoea, dysentery, colic, cramps and pains in the stomach, summer complaint, etc., will find that Dr. Fowler's Extract of Wild Strawberry will give quicker and more permanent relief than any other remedy on the market today.

This old tried and proven medicine has been on the market for the past 74 years. You don't experiment when you buy it. Surely the test of time proves this.

Mrs. Daniel Hartwick, Mountain Grove, Ont., writes: "I used Dr. Fowler's Extract of Wild Strawberry and have found that it is a good remedy. When my little girl was 2½ years old she had a very bad attack of bowel complaint. Nothing prescribed by the doctor seemed to do her any good. She got worse, until we thought we would lose her. I got a bottle of Dr. Fowler's, and she soon found relief. Everyone who has children should not be without it in their home."

Price 35 cents a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

London-Paris Air Service

Journey Both Ways Being Made in Just Under Six Hours

London.—Three machines took part in the inauguration of the air express service to Paris, the journey both ways being made by one machine in just under six hours.

The "Aéro 41," which belongs to the Aircraft Transport and Travel Limited, and which has often carried Mr. Bonar Law and General Seely to France, carried one passenger and a cargo of goods and accomplished the journey in scheduled time.

The "Aéro 16," piloted by Major C. Patterson, M.C., carried several journalists and a cargo of newspapers at the fast speed of 140 miles per hour, also arriving to time, despite head winds.

The Handley Page machine, piloted by Major Foote, carried 11 passengers, but was detained in Paris. All the machines were examined by customs officers at Hounslow and at Bourget before departure and on arrival.

Trade With Central Powers

British Ships Take Cargoes at Hamburg and Bremen

London.—A great deal of curiosity is being evinced by the British public regarding the effect of the reopening of trade with the central European powers. Although it has been known for some time that German firms have been sending circulars to British business houses offering articles for sale, it was generally believed some hesitancy still existed among commercial houses with regard to the resumption of business relations with the central powers.

Owing to the lack of shipping facilities, it will be impossible for any consignments of imports to reach Great Britain for some time to come. The Peninsula and Oriental, British India and Wells lines announced their vessels will load at Hamburg and Bremen.

A recent issue of the Aberdeen Journal was the 20,000th number of that venerable newspaper—now the oldest in Scotland. The first issue of the Journal was published on April 18, 1746, and contained an account of an eye-witness of the battle of Culloden fought two days previously.

When you hear a man say that he is tired of the world it's a safe bet that the world is tired of him.

Some men always do their best—including their best friends.

## Hutterites Must Educate Children

Must Conform to Regulations or Suffer Prosecution

Winnipeg.—The Hutterites, as in the case of the Mennonites, must conform to the regulations of the Manitoba school attendance act or suffer prosecution, was the decision announced by the department of education.

Robert Fletcher, the deputy minister of education, visited the colonies at Eli, Man., and informed the Hutterites that they must make some provision for the education of their children. A school is under erection now, and upon completion the department of education will appoint trustees, as the Hutterites do not take part in elections, and assign a teacher to the school.

Extremists In India

Using Against the Government a Vigorous Propaganda

London.—A grave warning about possibilities in India arising from the activities of the extremists was uttered by Sir Harrington Verney Lovett, who has held many important positions in the Indian government, in the course of testimony before the committee of the government which is considering the India Bill.

Sir Harrington said that the extremists were increasing rapidly and were using against the government a vigorous propaganda, combative and nationalist, and backed by slander and misrepresentation.

A strong lead was needed from Great Britain, he declared, for otherwise the ruin of Indian and British interests would be accomplished. A policy of "drifting might mean the introduction of premature home rule with strife and disorder."

Hawaiians Dying Out

Hawaiians are dwindling, according to a Honolulu professor, who says that there are probably not 10,000 pure-blooded Hawaiians living today. In 1778 there were about 300,000; in 1823 there were only 142,000; in 1833, 130,000; in 1869, 44,000; in 1900, 30,000; in 1910, 26,000. This rapid disappearance of "one of the finest physical types known in the history of the human race" is due to the introduction by white men of alcohol, plague, measles, leprosy, tuberculosis, pneumonia, and the most terrible of blood diseases, none of these having been known in Hawaii before the advent of the white man.

One Big Union Is Dead Issue

Winnipeg.—In the opinion of R. A. Rigg, organizer for the internationals in the West, the One Big Union movement is definitely defeated as far as Regina, Saskatoon and Moose Jaw are concerned.

"Very little O. B. U. sentiment is apparent in these cities, and with very few exceptions the unions are lining up behind the internationals."

Pershing's Rank Permanent

Washington.—President Wilson has signed the bill making permanent the rank of General John J. Pershing, commander of the expeditionary force.

THIS WEEK,  
NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORKMAN, 2842 North Taylor St., Philadelphia, Pa.

The majority of mothers nowadays overdo, there are so many demands upon their time and strength, the result is invariably a weakened, run-down, nervous condition with headaches, back-ache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Workman.

WEDNESDAY, SEPTEMBER 10, 1919

Canada is again asked for a Victory Loan and the Gleichen district can be counted upon to do its duty just as it has in the past—and have a flag or two over its allotment, whatever that may be. Owing to the exceptional crop situation this year Southern Alberta may not be asked for quite as much as last year, but it is a foregone conclusion the amount will be forthcoming.

Sir Thomas White in his appeal for the 1919 Victory said in part:

We have come through this war with great credit to the country and to the individual classes in the community, agricultural, industrial, commercial and financial.

It is a most creditable part we have played in this war, both at the front and at home, and in the maintenance of our commerce and industry, that credit belongs to all the people of Canada.

On the human side, it would be a most regrettable, a most serious thing, if the people who have played such a worthy part in this war should find themselves in a condition in which they should be unable to provide for their families. That is the most material factor in the national situation. It is, therefore, a proper part of our policy to strive to maintain our industry and business, not only for the purpose of keeping it going for the profit and advantage that is in it, but also for the purpose of affording employment.

To have stopped everything suddenly would have been disastrous from every standpoint and would have resulted in the greatest possible amount of suffering in this country. To a certain extent these conditions apply when looking to the future.

That is the policy that must commend itself to our judgment, from the standpoint of stabilizing our finances, from the standpoint of supplying needed credits for the sale of our products, and from the standpoint of affording employment for the months that are to come.

In war time the treasury loses control over the expenditures. Our armies are at the front, the nation is putting forth its utmost efforts, and it is out of the question for the minister of finance to say: "We are going to have difficulty in finding the money".

When the nation is putting forth its utmost effort fighting for its life, it has no tolerance for any suggestion that the government cannot find the money. Finance becomes secondary in war time; the money must be found. We did not resort to the inflation of our paper currency as they did in Great Britain and in the countries of Europe. Our currency situation is not bad at all. It is better than the situation in any country in Europe and second only to that of the United States. We faced the interest situation and as a consequence of our favorable position, in a country that had never before floated a loan of more than \$5,000,000, in the last Victory Loan we raised nearly \$700,000,000. That did not happen by accident. The responsibility had to be undertaken, and the organization had to be brought into being that would accomplish the result, acting upon the intense patriotism of the Canadian people. The results have been such as to reflect credit upon all.

We will have the satisfaction of saying that we did not relax our efforts immediately the war was over, but that we put through the job of seeing that the floating debt of the country was funded—we have cleaned up the situation.

It now seems there has been too much talk of the damage this year by drouth to the crops in Southern Alberta, or rather that certain newspapers in the United States are taking advantage of this talk to stop many desirable farmers coming this way to settle, and are reporting conditions much worse than they really are. Too often we are prone to complain too much when things go wrong, especially in a country of rapid changes like this and we would do well at all times to remember that beautiful little verse:

When then Sun of Joy is hidden,  
And the sky is overcast;  
Just remember light is coming,  
And a storm can never last.

## BUY AN IRRIGATED FARM

FROM THE CANADIAN PACIFIC RAILWAY

### BECAUSE:

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record. For full particulars apply to

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 per acre, with 20 years to pay and the privilege of a loan of \$2,000 for improvements (8% interest): no principle after first payment until end of fourth year, reduced interest if settlement conditions are complied and no water rental for first year. Contract can be paid off before maturity if desired.

## "The Heart of Humanity"

The Gleichen Opera House was filled to the doors Saturday night to see the film "The Heart of Humanity", which was accompanied by a splendid orchestra. There is criticism of the picture as being crude and uncalled for now that the war is over, as well as being far from moral and generally over drawn. As a recruiting picture it might have accomplished some good but now that we are victorious it is different according to critics. The charge of \$1 admission is characterized as holdup, in comparison to 25 cents charged in Calgary. The Call also is severely criticized for not advertising the price of admission, particularly by some who came in some distance from the country, but it should be remembered that an advertiser has the same right to put just what he pleases in his space, as a house-renter has in his house to do as he likes so long as he does not damage the property. However, in future we will request travelling shows to give their prices as a matter of news. Many of these send in their copy by mail which makes it impossible sometimes for us to get the information desired.

## Wants Annual Meeting of Peoples Market

Editor Gleichen Call:

Sir,—As a shareholder of Peoples Market Limited I would like to ask the management when the annual meeting is to be held? The company has now been in possession of business over a year and as there is so many complaints of the class of meat sold and the prices charged I think it would be well for all concerned to have the annual meeting and the auditor's report published in The Call, along with a clear statement of the company's affairs.

I purchased stock in this company with the understanding it was to be a public co-operative concern that would give us better meat at lower prices, and now I feel it is up to myself and the rest of the shareholders to see these objects are carried out and thoroughly investigate any complaints properly made. It would be well to ask those who have complaints to make them in writing that there will be something definite to deal with.

For my own part the dividend does not interest me. What is \$100 compared with getting good, healthy fresh meat for the whole district at reasonable prices, and co-operation in its fullest sense? If our company has bought everything we can at Gleichen at the highest market price and sold it at Gleichen for the lowest reasonable price then we have accomplished the company's objective as set by the promoters, and there will be no room for so much talk of opposition.

Sincerely yours,  
SHAREHOLDER.

"A Joan of Arc Machine"

"SHE withstood everything in the field and above all was, and still is, the last and only car to survive until the cessation of hostilities."—Extract from letter received by Ford Motor Company from a British Soldier, in Africa.

Over shell-torn roads, through water soaked fields, second only to the tanks in its power to climb debris and crater holes, the Ford car made a world famous record in the fighting area of the great war. In press despatches, in field reports, in letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords  
In Italy - 850 cars out of 1,000 were Fords  
In Egypt - 996 cars out of 1,000 were Fords  
In Mesopotamia - 999 cars out of 1,000 were Fords

### Back To School

The schools' summer holidays are over for another year, and teachers and pupils are again occupying their places in the little schoolhouses all over this prairie country, where the real foundations of Canada's future citizenship are being laid.

But while the teachers are in their places, something more than ten thousand of them in the three Prairie Provinces, it is important to ask and answer the question whether all the boys and girls are again in school who ought to be there.

Compulsory school attendance laws are in force in these provinces, under which it is obligatory on parents and guardians to send their children to school until a certain age is reached. These are wise laws, designed to prevent future citizens from growing up to young manhood and womanhood not only uneducated, but illiterate. In this western country boys and girls are wisely compelled to learn to read, write and speak English and master the rudiments of a primary common school education.

Every year, however, some thousands of boys and girls reach the age when the compulsion of the law enforcing school attendance is lifted, and it becomes a matter to be decided by the fathers and mothers whether Charles or John or Susie shall return to school, or whether they will be kept at home to help on the farm or in the store or about the house, or be allowed to go out and "get a job" and thus help to keep the family.

It is a critical decision fathers and mothers are called upon to make. Boys and girls, usually, are anxious to get away from the discipline, routine and what so many regard as the drudgery of school. It is not until later years that they look back upon their school days as the happiest, most carefree days of their lives. In their teens, however, they are anxious to go out into the world and "begin life's great adventure." It is the parents who must decide wisely for them.

After all, as one observer has said, it is just a matter of arithmetic. If a boy is just ready to enter high school he can probably earn six or eight dollars a week for the first year and an average of ten, twelve or fifteen dollars a week for the next three years. That is to say, he can earn from \$1,500 to \$2,500 if he stays away from school.

But take the other side of the ledger. If the boy continues to go to school for another three years he will be able, at the end of his course to earn on the average more than the boy who stopped short of the high school, and he will be able to earn it for the thirty or forty or fifty years of his earning life. The balance in money is on the side of the boy who returns to school.

Then comes along the pessimist and the job's comforter and says:

"Well, if he goes back to school and gets cram full of book learning what will it profit him? Does not a plumber earn more than a schoolmaster, and a carpenter more than a clerk? And of what particular value will a high school education be to John as a farmer or to Susie as a farmer's wife?" These are unfair arguments and illogical. The trained carpenter and the skilled plumber having the backing of a good education soon forges ahead of his fellow carpenter or plumber who left school before he was half-way through. It is the educated man who succeeds in business for himself, while the uneducated "ones" become his employees. And in this age and generation it is not necessary to dwell on the fact that successful farming has become a highly organized business undertaking, a really scientific undertaking in the carrying on of which ignorance and slipshod methods can have no place, but in which the trained, intelligent, thinking men is pre-eminent.

But everything should not be measured by the money standard. Is there not a better opportunity in life for happiness, for contentment and for service, for the boy or girl possessing the qualifications and powers which a good education confers upon them? There is a place in the life of the community, the Province, the Dominion which only the educated can fill, and in these days, and in the years to come, service to our country and to our fellow men is going to count.

Parents must ask themselves the question whether, by withdrawing their children from school before they have secured the advantages of a high school education, they are going to deny to them the opportunity of fitting themselves for the rendering of such service, and of attaining the place in the life of their country which they may otherwise be exceptionally well qualified to fill. The fathers and mothers of today are the trustees of the future citizenship of Canada. With them rests the decision now which may make or mar their children's future. It is a tremendous responsibility. The wise decision will be to keep their boys and girls at school just as long as they can possibly do so, and thus give to them the best possible equipment for their life work, no matter to what lot or sphere of action they may be called.

German millionaires are now trying to escape from Germany to avoid the confiscation of their property. Over thirty millionaires have arrived in Svendborg, in the Island of Alsing, in Slesvig, hoping to succeed in becoming Danish citizens, and thus saving their fortunes. They have already bought house and landed property, but this, according to the recent declaration of the Danish Government, will not give them Danish citizenship.

### WHY BEAUTY FADES

#### A Condition Due Entirely to Poor, Watery Blood

The girl who returns home from school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this getting tired so easily is probably the first warning symptom of a thinning blood that must not be disregarded if her health is to be preserved.

When the blood becomes thin and impure the patient becomes thin, pale, haggard and angular. She not only tires out easily, but suffers from headaches, palpitation of the heart, dizzy spells and a loss of appetite. This condition will go from bad to worse, until perhaps fatal consumption sets in, if prompt steps are not taken to increase and enrich the blood supply. To make the rich, red blood that brings the glow of health, no medicine yet discovered can equal Dr. Williams' Pink Pills. It gives a fair trial their use brings rosy cheeks, bright eyes, a good appetite and good spirits. Dr. Williams' Pink Pills have made thousands of pale, languid girls active and strong. On the first sign of poor, thin blood, mothers should insist upon their daughters taking a fair course of these pills. They will not only restore health, but will save further doctor bills.

Dr. Williams' Pink Pills can be obtained from any dealer in medicine or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

### Flax Survey in Ontario

Toronto.—A personal survey of the flax situation in Ontario made by Mr. Justus Miller, field crop specialist of the Department of Agriculture, reveals the fact that the crop this year is only a fair one, at least one-third of the yield being too short to pull. This quality will be made into Scotch tow, and the remaining two-thirds of the crop will be used for fiber. There are in all 50 flax mills in the province, and these are operated by 33 companies. The growers expect to ship about 50,000 bushels of seed to Ireland.

Asthma Brings Misery, but Dr. J. D. Kellogg's Asthma Remedy will replace the misery with welcome relief. Inhaled as smoke or vapor, it reaches the very inmost recesses of the bronchial passages and soothes them. Restriction passes and easy breathing returns. If you know as well how this remedy would help you as do thousands of grateful users, there would be a package in your home tonight. Try it.

### Define Preferred Goods

Twenty-five Per Cent. Total Value of Home Production

London.—According to new "imperial preference" orders issued by the board of trade, preferential rates shall apply to refined sugar, molasses, sugar extracts and manufactured tobacco "only in respect of such proportion of these goods as corresponds to the proportion of dutiable material used in their manufacture, which is shown to have been grown or produced in the empire." Another order says that goods shall not be deemed to have been manufactured in the empire unless at least 25 per cent. of their total value is the result of labor within the empire.

### Figures on Strike Losses

Ottawa.—According to figures prepared by the Canadian Department of Labor, a total of 14,127,220 days have been lost through strikes from 1901 to 1919. Putting the minimum wage at \$3 a day, the department estimates that the working men of Canada have lost at least \$43,000,000 during the period, though no estimate is made of increased wages secured through the strikes.

The total number of strikes was 2,127, involving 597,735 employees.

### Cardinal Mercier to Visit U.S.A.

### Germans Prepare To March Into Russia

Under Pretence of Endeavoring to Help Admiral Kolchak

Paris.—A modernly equipped German army of 40,000 men has assembled in Lithuania, and is preparing to march into Russia under the pretence of endeavoring to reach and help Admiral Kolchak, according to Lithuanian sources here.

Word to this effect was brought to Paris by Chief Engineer Steibiko, of the Lithuanian railway system, who declared the Germans talked freely of a coming understanding between Germany, Russia and Japan.

In describing the situation to the Associated Press, M. Steibiko said that the large German force which has re-occupied Lithuanian territory have been several times ordered away by the Lithuanian government and Marshal Foch, were entreaching themselves and making preparations for a march through Russia. They called themselves "Kolchaks," and pretended that their immediate object was to reach and co-operate with the admiral's forces.

### Doukhobor Wins Medal

Led Bombing Party and Succeeded in Capturing 14 Enemy Prisoners

Regina.—The only Doukhobor in Saskatchewan to win the Military Medal for gallantry overseas is Private J. J. Haloboff, M.M. and bar, 46th Battalion, who enlisted at Yorkton, Sask. Pte. Haloboff joined the 188th Battalion in 1916, went overseas the same year, and entered the trenches with the 46th. He stayed with that unit until mustered out this year.

The official notice in connection with the awarding of the medal is as follows:

"887366 Pte. Haloboff, J. J., 46th Canadian Battalion, Military Medal. "During the night of August 23-24 he courageously led a bombing party through cellars and succeeded in capturing 14 enemy prisoners located in one cellar, which was connected by telephone and contained maps and a store of bombs and small arm ammunition."

Haloboff came to Canada seven years ago from Russia. All the education he has secured in provincial schools. Following the exploit in which he distinguished himself, Haloboff won a bar to his medal for further bravery. This was toward the end of the war.

Propaganda Funds From Russia

### Lady Rhondda Is Delighted With Canada

Widow of British Food Controller on Way to West

Toronto.—Lady Rhondda, daughter of the late Lord Rhondda, former British food administrator, accompanied by her mother, the Dowager Viscountess Rhondda, Lady Rhondda's husband, Sir Humphrey Mackworth, her brother-in-law, and his wife, Col. and Mrs. Mackworth; Mr. Haig, a cousin of General Sir Douglas Haig, and Mrs. Haig, and Mrs. Cardew and Lloyd Oliver, of Vancouver, B.C., and Canada representative of the Rhondda estates, are on their way to the Peace River country, where the late Lord Rhondda made large investments.

"Canada is a wonderful country," said Lady Rhondda in an interview here. "One feels that its possibilities have only been scratched. Coming from a land where possibilities are almost exhausted, one feels this very strongly."

### The Future British Navy

In its leading editorial, a recent issue of "The Naval and Military Record," speaking of the future development of the British navy, said: "The German fleet has disappeared, and the only foreign power which has augmented its navy upon a large scale is the United States. In these circumstances it will not be easy to hit upon a working formula to represent our minimum needs."

"We might, of course, base our future building programmes on the corresponding efforts made by the United States, but the objection to such a course is that it would imply a rivalry in armament between the very powers on whom the world relies to prevent fresh wars. Few people in this country would approve a naval policy which could in any sense be interpreted as a threat to our friends across the Atlantic."

### Why Prices Go Up

From an Address to Congress By President Wilson

With the increase in the prices of the necessities of life come demands for increases in wages — demands which are justified if there be no other means of enabling men to live. Upon the increase of wages there follows close an increase in the price of the products whose producers have been accorded the increase — not a proportionate increase, for the manufacturer does not content himself with that, but an increase considerably greater than the added wage cost and for which the added wage cost is oftentimes hardly more than an excuse.

The laborers who do not get an increase in pay when they demand it are likely to strike, and the strike only makes matters worse. It checks production, it affects the railways, it prevents distribution and strips the markets, so that there is presently nothing to buy, and there is another excessive addition to prices resulting from the scarcity.

### Canada's Increasing Wool Production

Government Figures Would Indicate a Production of Close to 18,000,000 Pounds

The wool clip of Canada for 1919 has been placed at 15,000,000 pounds, according to early estimates, says the Manitoba Free Press. This represents a very material increase over last year, and probably marks the apex of wool production for the current decade. Government figures would indicate a production of close to 18,000,000 pounds, but this is thought by well informed persons in the wool trade to be in excess of the actual clip. The 1918 production was 12,000,000 pounds or thereabouts. The sheep population has been increased by between 300,000 and 400,000, making the gain in wool production amount to between 2,000,000 and 3,000,000 pounds. The increase is believed to be fairly evenly distributed over the entire country. This is fairly important from an economic standpoint, increasing the revenue that will accrue to the producers and enlarging the exportable surplus of the domestic staple.

### Splendid Type Of Patriotism

A Fine Picture of a Modest and Honorable Gentleman

There resumed his duties as constable in Cardiff, Wales, the other day, remarking as a matter of course that he considered any man who had been on the Cardiff police force ought to return because the taxpayers had been supporting his dependents in his absence, a man who epitomizes a fine type of patriotism. Constable Ritchings enlisted in the British Army in 1914, served for some time in the ranks, and then rose by promotion to second lieutenant, captain, major, and lieutenant-colonel. He was six times wounded, three times mentioned in dispatches, and won the decoration of Chevalier of the Legion of Honor, the Croix de Guerre, and the Military Cross. Then, the war being over, he came home to Cardiff and resumed his place as constable. As the account says, "A fine picture of a modest and honorable gentleman!" —Christian Science Monitor.

# Canada To Prohibit Excess Profiteering

Ottawa.—The Board of Commerce is forthwith to investigate profits on necessities of life. According to a ruling of the board, the special object of the enquiry "shall be to accumulate evidence for the purpose of ascertaining what (with allowance in each case for locality) shall be deemed to be fair profits, and to fix a date after which the taking of profits in excess of a rate to be determined shall be deemed unfair under the Combines and Fair Prices Act." The enquiry will embrace all matters which arise or indicate the breach of any provision of the act, or any other antecedent laws or regulations.

The chief commissioner, Judge H. A. Robson, and Commissioner O'Connor are each ordered individually to report to the board, each of the said commissioners sitting for the purpose at such time and place as he may determine.

## Terrors Of Bolshevism

Everyone in Russia Lives Under a Shadow of Horrible Death and Torture

London.—Commander Colonel John Ward has arrived in London, having been summoned from Russia by the War Office for a consultation.

In an interview he stated that the horrors of Bolshevik rule had been far from exaggerated. It was, he said, indeed doubtful as to whether the story of half the atrocities in Russia had yet been told.

The secret of the prolonged regime of the Bolshevik was simply terrorism. Everyone in Russia acted under fear of denunciation and of a horrible death. Besides there was no food, clothing or other necessities of life for those refusing to profess Bolshevik views. Again the Bolsheviks controlled the rich manufacturing districts and all attacks on them had to be made from the sparsely populated areas, hence it was important that General Denikin should be supplied with munitions as should be Kozniak.

The Bolshevik forces, states Commander Ward, have practically unlimited supplies of munitions, as only a small portion of the munitions supplied Russia by the allies before the revolution fell into the hands of the Germans. Colonel Ward said he believed that the Bolsheviks had sufficient munitions for ten years.

## U.S. Navy to Go to Greet Prince

Vancouver.—Hon. Josephus Daniels, secretary of the United States navy, will send part of his Pacific fleet to Vancouver on September 22, when the Prince of Wales is to be here. Mr. Daniels wired city officials that while he would not be able to be present himself, he would be pleased to send part of the fleet, and would "make such arrangements as possible." Mr. Daniels is to visit Victoria on a dreadnought on September 11.

## \$30,000 for Grubstake

Dawson.—The Dawson city's welcoming and re-establishment committee for returned soldiers has adopted resolutions asking the Federal Government for \$30,000 for relief of returned men who arrived back here too late to earn a winter grubstake, or who are physically unfit, and asking particularly that soldier-miners be given this assistance in lieu of land grants.

You will always have money if you save half your earnings.

# Miners In Britain Are Still Restless

London.—The situation of the coal question now is that the Miners' Federation has unanimously rejected the government's plan for working the mines in favor of nationalization. They have, however, left it to the Trades Union Congress, to be held at Glasgow on September 8, to decide whether there shall be direct action by the miners or whether constitutional means shall be employed to secure nationalization of the mines.

This means, in the opinion of the competent judges, that direct action will not be taken. The miners nevertheless, are said to be flirting with the idea and will endeavor to induce the labor triple alliance—the miners, transportation workers and railwaymen—to order another ballot

## Farming To Be Taught To Imperial Veterans

Those Eligible for Dominion Aid Must Be Ready to Be Trained First

Ottawa.—The Soldier Settlement Board of Canada has issued regulations for the settlement of imperial soldiers or others of the British forces not resident at the outbreak of the war.

In order to become eligible for a loan, those who are not experienced in agriculture will spend two years in training in practical farming, and those who have had farming experience in the old land sufficient time with farmers in Canada under supervision of the board to become familiar with the Canadian methods. Settlers on purchased land will be required to pay down 20 per cent. of the purchase price.

A qualification committee will pass on applicants for settlement both before and after training. Evidence of adaptability necessary to fit in Canadian life and make a success of farming business will be an important consideration.

## Wilson Will Consult People

Going on Stump for Peace Treaty All Over States

Washington.—President Wilson has left on his western speaking tour on behalf of the peace treaty, confident of ratification of the instrument by the senate without amendments or "destructive reservations" which would require re-negotiation.

The trip, perhaps the most arduous ever undertaken by a President, will carry Mr. Wilson and his party as far west as the Pacific coast, almost to the Canadian border on the north and almost to Mexico on the south. He will speak in every state west of the Mississippi except four, and will make up for the omission of these by speeches in Ohio, Indiana, Kentucky and Tennessee. In Seattle he will review the Pacific fleet.

Although it is expected that the President will devote most of his attention to the peace treaty, he probably will also touch on the high cost of living and other domestic problems.

## Rumors Waste In Navy

Admiral Fisher Suggests Money Might Now Be Reserved for Better Things Than Fleets

London.—A protest couched in vigorous language in the Times by Lord Fisher on naval expenditure has evoked interesting comments. Lord Fisher declaimed against alleged incredible and ruinous waste in the navy, which now costs one hundred and forty million pounds sterling annually, as compared with thirty-four million in 1904, notwithstanding that the German fleet does not exist. Lord Fisher declares that half the navy is already obsolete and should be scrapped and says that the other half will be equally useless in a few years because of internal combustion engines and oil.

Lord Fisher concludes: "If the nation don't sack the spendthrifts, the day of crumbling is not far off."

## Another Hohenzollern

Berlin.—A son has been born to Duchess Victoria Louise of Brunswick, daughter of former Emperor William.

## Aviators Take Up Life On Ranch

To Breed Horses, Cattle and Sheep and Grow Cotton

London.—A party of former officers of the British forces held a meeting here with the purpose of getting acquainted preparatory to their departure for Central America, where they will take up life on a ranch under the supervision of Brig.-Gen. Alfred Critchley, former commander of the Royal Air Force.

Brig.-Gen. Critchley originated the plan "in recognition of the desire on the part of many other demobilized officers for healthy sporting and adventurous open-air life, combined with unlimited possibilities of a commercial nature."

On the ranch, which is located in the centre of a well-stocked sporting area, it is proposed to breed horses and cattle and sheep, and grow cotton and other crops. The estate belongs to General Critchley.

It is planned to divide the land among the members of the party after the first year spent on it.

All the members of the party who will make the trip are bachelors, but married men, who are former officers of the British forces, will be welcomed to membership in the club after the inauguration of the enterprise.

Brig.-Gen. Critchley, who was born in Calgary 29 years ago, is widely known in Canada as a sportsman, hunting, polo, golf and tennis being his favorite pastimes. He was a member of the Lord Strathcona Horse at the outbreak of the war, and went to Europe and served with the First Canadian Division. He was awarded the D.S.O. in 1915.

## Army Food Going Cheap

Prices Slashed to Meet Cut Made By Chain of Grocery Stores

New York.—Sale of surplus army food in New York took on the aspects of a cut rate war, when Market Commissioner Day, in charge of sales, announced that prices of canned soups had been slashed to meet a cut in soup prices made by a chain of grocery stores following army food sales.

The army soup originally was sold at nine and ten cents a can, which was below the price chain stores were asking for similar products. The chain stores cut their prices to three cents for 25 cents. Commissioner Day's new price for army soup is seven cents a can.

Commissioner Day also announced revision downward of the prices charged for army bacon, beans, corn, peas, condensed milk, corn syrup and canned tomatoes. All these staples now are being sold at prices considerably below those fixed by the fair price committee, he said. According to Commissioner Day, the army food sales have totalled more than \$500,000 in eight days, and at the present rate the supply of army food will have been exhausted in two more weeks.

## Warn Income Tax Dodgers

Winnipeg.—A local paper, in a special dispatch from Ottawa, states that prosecution of income tax dodgers will begin this week, according to a report from the Department of Finance. The department, it is said, plans vigorous prosecution of all persons who failed to file a return on their income or who gave false information. Several Montreal and Halifax business men and several prominent westerners are in line for early prosecution, it is reported.

## Cheaper Meat for New Yorkers

New York.—The retail price of meat has declined from one to two cents a pound in this city, according to Arthur Williams, federal food administrator, who has just issued his semi-weekly fair price list. In the matter of groceries, however, the campaign against the pool has not been so successful, as most of the items under this head have increased slightly.

## Arrest Mexican Outlaws

Washington.—Outlaws responsible for the murder of John W. Correll, an American citizen, have been arrested and will be placed on trial at Tampico, the Mexican embassy has announced. The arrests were made near Los Mezquils and included Ramon Diaz, chieftain, and his followers, Rafael Ruiz, Francisco Gamboa, Blas Vidal and Francisco Valverde.

## Prince Will Unveil Statue

London.—The statue of Queen Victoria, purchased by the British Columbia government before the war for placing in front of the government buildings at Victoria, is being shipped, and it is hoped that it will arrive in time for the Prince of Wales to unveil. The statue has been at the Royal Exchange.

## Carson In Belfast

Declares Self-Determination Most Misleading Phrase

Belfast.—Sir Edward Carson, who has come here to open a new anti-Home Rule campaign, addressing the Ulster Unionist council, declared that as far as Ireland was concerned, colonial Home Rule was the same thing as the Sinn Fein, and that in this respect the Sinn Fein was perfectly logical because there was nothing between union and separation.

Sir Edward challenged the government if it had nothing in its mind bordering on the Sinn Fein, to courageously let the world know that Great Britain would brook no interference, whether by agitation in the United States, on the continent or elsewhere.

Self-determination was characterized by Sir Edward as one of the most misleading phrases ever advocated. He asked if the United States would allow the southern self-determination, or if Canada would permit Quebec to have self-determination. Seeing no prospect of a settlement of the pending issue with regard to Ireland, Sir Edward predicted an early return to pre-war party politics.

## Austria's Peace Terms

Allies Insist on Definite End of the Danube Empire

Paris.—Commenting upon the action of the peace conference in simultaneously handing Austria, in final form, the peace terms framed for her acceptance, and the delivery to Germany of the note demanding a change in the German constitution to eliminate the provision for the selection of Austrian representatives to the German parliament, the Paris newspapers declare this was not a simple coincidence. It means, the press argues, at once a firm resolution by the allies to insist upon respect for the terms of the German treaty as regards Austria and the definite end of the Danubian monarchy.

## Germans Protest

Berlin.—The Tagliche Rundschau declares that the demand by the entente that the German constitution be altered is hardly calculated to induce the German people to respect their new charter, and warns the supreme council of the danger of precipitating a new civil disruption.

The Vossische Zeitung says a flat refusal is the only possible answer to the demand of the entente, while the Kreuz Zeitung remarks that "the amateurs of Weimar must now put up with the constant intervention by the entente in Germany's civil affairs."

## Editors of Empire to Tour Canada

Winnipeg.—Bruce Walker, of the Immigration Department, stated that Canada is to be visited next summer by editors from all corners of the British empire. The Empire Press Association, comprising every editor in the empire, is to meet in Ottawa next year and will be shown the country from coast to coast. Lord Burnham, head of the London Daily Telegraph and president of the association, is making all arrangements for the gathering.

## Another Prohibition Measure

Ottawa.—The attitude of the government in regard to prohibition, it is authoritatively stated, has not yet been definitely determined, although it is regarded as probable that a measure will be brought down. The rejection of the government's bill by the senate last session has left the war time order-in-council in force, but the order-in-council will expire on the proclamation of peace.

## To Withdraw From Russia

London.—It is authoritatively stated that the decision to withdraw the British troops from North Russia has not been altered. The recent offensive operations against the Bolshevik were undertaken solely to weaken the enemy and ameliorate the situation to the greatest possible extent for the Russian volunteers after the departure of the British.

## To Protect Salmon

Washington, D.C.—A treaty between the United States and Great Britain for the protection of sockeye salmon of the Fraser river system was signed at the state department. Secretary Lansing signed for the United States, and R. C. Lindsey, in charge of the British embassy, and Chief Justice John Douglas Hazen, of Canada, signed for the British Government.

## A Gruesome Find

London.—Several hundred bodies, which were hidden in Budapest, have been discovered by Rumanian troops in that city, according to a Basle dispatch to the Exchange Telegraph Company.

## Germans Must Fulfill Peace Terms

Allies Will Show Firmness in Having Peace Treaty Fully Carried Out

Paris.—Commenting upon the action of the peace conference in simultaneously handing Austria, in final form, the peace terms framed for her acceptance, and the delivery to Germany of the note demanding a change in the German constitution to eliminate the provision for the selection of Austrian representatives to the German parliament, the Paris newspapers declare this was not a simple coincidence. It means, the press argues, at once a firm resolution by the allies to insist upon respect for the terms of the German treaty as regards Austria and the definite end of the Danubian monarchy.

## Australians To Learn Dry Farming

Hundred Picked Veterans Will Study Methods in United States

New York.—One hundred picked Australian soldiers will arrive in New York on the steamship Celtic, en route to the University of California, where they will take a twelve months' course in farming, it was announced here. They will return home and teach Australian soldier farmers scientific agronomy and irrigation.

The Australian Commonwealth recently appropriated nearly \$250,000 for the aid of returned soldiers and sailors in obtaining land holdings. Believing that a large number of veterans will go into agriculture, the government has sent the Australian delegation to the United States to study modern farming methods.

## Significant Shuffle In Cabinet

Hon. Arthur Sifton Now Minister of Public Works

Ottawa.—A small, but, in a way, significant shuffle in the cabinet took place, when Hon. Arthur Sifton, former minister of customs, walked across the square and took the place of Hon. F. B. Carvell as minister of public works.

No announcement is yet made as to the customs portfolio, but it is quite possible that when Hon. Martin Burrell, secretary of state, goes out, H. H. Stevens, of Vancouver, will become minister of customs and the new secretary of state will come from New Brunswick.

By this move Mr. Sifton heads a live spending department, and considerable interest attaches to the change.

## Made In Germany

Story of Proposed Attack Upon Petrograd Without Foundation

London.—It has been ascertained that the dispatch from Berlin giving German reports from Riga to the effect that Gen. Gough, of the British army, had issued a proclamation to the population of Petrograd that an attack was about to be made on that city is untrue.

Gen. Gough left Helsingfors August 19 for home, and at the present time is in England. He did not see Admiral Cowan, commander of the British naval forces, operating in the Baltic sea, before his departure for home.

## Armenians Fear Massacre

London.—Responsible authorities in Armenia continue to emphasize the exceedingly grave situation that must follow the withdrawal of British troops. There are conclusive indications that as soon as the withdrawal occurs the Armenians will be attacked from the east and southwest by Tartars, Kurds and Turks, who will likely form a combined force under Turkish officers. The Kurds and Tartars are already moving towards Erivan, the Armenian capital, to be in readiness to strike when the Armenians are left defenceless.

## Threw Bomb at Governor

Tokio.—Advices received here from Seoul, capital of Korea, state that a bomb was thrown at Governor-General Saito and that twenty persons were wounded, including an American woman named Harrison, who is believed to be related to Carter Harrison, former Mayor of Chicago. Governor-General Saito was not wounded. No further details were received.

## New Zealand Agrees

Wellington, N.Z.—The peace treaty with Germany was unanimously ratified by parliament, after members of the Labor party had criticized the pact.

W. N. U. 1280

# Wilson Explains The Peace Treaty

## 100,000 Germans Escaped Service

Switzerland Leads Neutral Countries With 40,000 Deserters

Geneva.—Nearly 100,000 officers and men are considered deserters from the German army during the war, according to Munich advices. Included in this number are many thousands who were in England and America at the outbreak and were prevented from joining the German army, "although advised beforehand to join the colors," the dispatch says.

Switzerland leads the neutral countries with forty thousand deserters. A proclamation of amnesty to these men has been issued if they will return to Germany this year, but many former German soldiers in this country refuse to go back, fearing that they will be placed in the ranks once more because the allies have permitted Germany to retain her army on a war footing until the end of 1919. The amnesty proclamation does not apply to those accused of treason.

## Cheap Meat For U.S.

Five Million Pounds of Frozen Food Made Available By the Government

Washington.—Five million pounds of frozen meats, now in cold storage in New York and Chicago, were offered by the War Department to municipalities for sale. The offer will remain in effect until September 25, at which time other methods of marketing such portions of the stock as remain will be resorted to.

The meats in storage include about 1,120,000 pounds of frozen poultry at New York and more than 1,000,000 pounds in the Chicago zone. This will be sold at 32 cents per pound. Large quantities of frozen mutton and pork shoulders and loins also will be offered from 16 to 27 cents. Since these products can only be transported in refrigerator cars, no order for less than a carload lot will be accepted.

## German Doctors for Russian Army

Berlin.—The medical journals in Germany are publishing advertisements offering positions to German physicians and surgeons in the Russian army. Attractive pay and the right of securing homesteads is promised them.

Medical men are urged to enlist with volunteer troop units organized for fighting Bolshevism and are promised a premium of 5,000 marks if the counter-revolution is successful.

## Austria's Hopes Blasted

Geneva.—The Austrian peace terms have been received in Vienna with great surprise and indignation, according to advices received here. It is believed that the Renner ministry will fall as a result.

Monarchistic circles consider that the terms have definitely killed any hope of the return of the Hapsburgs. Former Emperor Charles, who received the news from Paris soon after the reply of the allies was handed to the Austrian commission, has decided to leave Switzerland.

No man ever comes half way up to the expectations his mother had of him when he was a boy.

Columbus, Ohio.—In the first speech of his trans-continental tour, President Wilson here urged the United States people to exert their influence for acceptance by the United States senate of the peace treaty signed with Germany, and predicted that the senate would ratify the treaty.

"When this treaty is accepted," he said, "the men in khaki will never have to cross the seas again, and I say 'When it is accepted,' because it will be accepted."

Speaking to a capacity audience which filled every nook in Memorial Hall, the President said it was not his purpose during the trip "to debate" the treaty, but to expound it to the people. He declared there was a concert of feeling among the allied representatives at Versailles. Referring to the United States delegation, he said:

"We were under instructions, and we did not dare to come home without fulfilling these instructions. If I could not have brought back the kind of a treaty I did bring back, I never would have come back."

President Wilson appealed to his hearers if they would not read the treaty themselves, to at least accept the account of its contents as given by those who made it.

The League of Nations, he declared, was forceful in fulfillment of the promise that the United States was fighting this war to "end business of that sort forever." Not to establish the league, he said, would have been unfaithful to those who had died. Besides, the President said, the treaty "tears away" the chains of oppression and gives small nationalities the right to live their own lives. "That," he said, "was the American position and I was glad to fight for it."

## France Accepted Friendly Offer

How They Agreed to Border Line Under Terms of Peace Treaty

Paris.—During the debate on the peace treaty in the Chamber of Deputies, Captain Andre Tardieu disclosed that France in February last had proposed that Germany's geographical frontier be fixed at the Rhine. He said that President Wilson and Premier Lloyd George had recognized the justice of the request, but instead of granting France the occupation of the left bank of the Rhine, they promised immediate help in the event of German aggression. France appreciated this offer, which was unique in history. Captain Tardieu said he was of the opinion the British army, if its services were ever required, would not arrive too late, as the German army would be unable to conceal its preparations.

Captain Tardieu dwelt on the strength of Great Britain and her admirable dominions, and also the United States, and concluded by saying that France had no designs to secure political ascendancy.

## Oil Find at The Pas

Winnipeg.—Reports reaching here from The Pas, Man., state that a discovery of crude oil of great commercial value has been made 20 miles southwest of The Pas.

One blow starts the trouble — and occasionally ends it.

# Feasibility Of Airplane For Commercial Use

London.—The Air Minister states that the demonstration flight recently carried out to Scandinavian countries by a flying boat of the Royal Air Force proved to be remarkably successful.

Starting from Felixstowe and proceeding via Dundee, the machine flew direct to Norway, and landed at Christiansand, this being the first occasion on which the journey has been accomplished by a British seaplane. From Christiansand the trip continued by stages to Christiania, Copenhagen, Stockholm, Gossburg, Esbjerg and back to Felixstowe, a total distance of 2,450 sea miles, which was covered in a total flying time of 40 hours and 40 minutes.

The flight was made entirely as a demonstration of the commercial use of flying boats, and it is noteworthy, because no mishap of any kind occurred, despite the fact that from its departure until its return to Felix-

stowe the machine spent a total of 27 days on the water or in the air. Exhibition and passenger carrying flights were carried out at Christiansand, Christiansand and Copenhagen.

The first exhibition flights were made before the King and Queen of Norway, and as the Queen expressed a desire to fly, her Majesty was taken up on two occasions seated beside the pilot. Her Majesty was keenly interested in his manipulation of the controls and during the second flight when the Queen was accompanied by the Crown Prince, her Majesty actually took control of the flying boat for a short period.

A very good impression was created in each of the Scandinavian towns visited and it is hoped valuable results will accrue to the British aircraft industry in opening up what is perhaps the best market in the world for water-going crafts.

## QUEENSTOWN

Several changes are to be made to the basement of the hall pretty soon.

Hereafter the monthly meetings of the U.F.A. and U.F.W.A. will be held in the hall on the last Saturday evening of each month at 8 p.m. The next meeting thus falls on Sept. 27th.

A number of women of the district have now organized a local of the U.F.W.A. and are co-operating with the men in the U.F.A. in the good work and are going to help take charge of the feeding problem at the future doings of the hall. A great improvement is looked for.

The dance and box social held in the Farmers Hall on Sept. 7 for the purpose of raising money for the U.F.A. political campaign in Bow River was a great success financially as otherwise. The people of the district responded nobly and there was quite a few from surrounding towns. Mrs. Trainor and her famous Calgary musicians did their best and very few young or old can keep their seats when that band lets loose. There was the greatest and best supply of good eating we have seen in the hall for some time thanks to the ladies.

The next important event to take place in the hall is the school children's fair on Wednesday, Sept. 24th. Mrs. Beckner and Mrs. Shore, the two leading spirits from Queenstown in the fair arrangements assures us that some very fine exhibits especially along the livestock line, will be shown by the children that will make some people set up and take notice. A number of stalls and boxes will be put up outside the hall for which the Queenstown Women's Institute will supply the lumber. Ice cream, lunches and coffee will be served under the able management of R. Shore. An educational moving picture show is promised to be put on in the evening by the Provincial Government. And while your correspondent has been instructed under pain of death not to mention dance, there is good reason to believe it will be wound up with something in that line.
